Anniversary Reception Given Rev. and Mrs. George A. Furness.

The paragon was the scene of a pleasant surprise last Saturday evening, the occasion being the 20th anniversary of the marriage of Rev. and Mrs. George A. Furness. A good number of the friends and parishioners called to con-gratulate them and to wish them con-tinued happiness and prosperity for many years to come. Rev. E. A. Tuck of Concord, N. H., and Rev. and Mrs. Morton W. Hale of Cabot were present, being intimate friends of the honored couple. Rev. Tuck acted as master of ceremonies and by his versatility rendered the evening very enjoyable for all present. As a slight token of appreciation a sub-stantial gift contributed by friends was presented by Rev. Hale, with a few well chosen remarks, to which Rev. Furness, in his usual happy manner, very feeling-ly and appropriately responded. Light refreshments, consisting of fruit punch and assorted cakes and wafers, were served in the dining room, Miss Flo-rence Wooster presiding at the punch bowl. Rev. and Mrs. Furness took up the work of the parish last February and during this brief time have made many warm friends, being held in the highest esteem by all.

The former church paragonage will con-tinue to be occupied by the family of Chaplain Paul Dwight Moody, who re-signed the pastorate of the church to ac-cept a call to New York, but was later called to take up his duties as chaplain of the Vermont regiment.

CHINA IS WORRIED.

Over Plots to Steal Vast Wealth of De-posed Military Leader.

Tien-Tsin, Sept. 24.—Many wild ru-mors have been circulated in Tien-Tsin concerning plots to steal the great wealth which the family of General Chang Hsun, the deposed military leader, is supposed to have stored in this city.

Fabulous reports have been circulated concerning Chang Hsun's fortune. It has been estimated at sums varying from \$10,000,000 to \$100,000,000.

Many precautions were taken to pro-tect the home of Chang Hsun in the Ger-man concession, after reports were cir-culated of the possible attempt to plunder his establishment. A gunboat was ordered to steam up the river, and make ready to direct machine guns against any raiding party which might attempt to enter the general's home.

A resourceful official entrusted with the protection of Chang Hsun's residence posted placards on all the gates, an-nouncing that it was an office for the collection of taxes.

After all these precautions had been taken, it was discovered that Chang Hsun's wives and other relatives were really not in their homes in the German concession, but had sought quarters in the British concession without advising Chinese officials.

FRANCE NEEDS SUGAR.

Hoover Asks Americans to Reduce Their Consumption.

Washington, D. C., Sept. 24.—Food Ad-ministrator Hoover appealed to the American people last night to reduce their consumption of sweets to leave a share for the French allies, who are facing the prospect of two months entirely without sugar.

"We have received a request from the French government," Mr. Hoover said, "that we allow them to export from the United States 100,000 tons of sugar dur-ing the next month, and probably more at a later period."

"Our own situation is that we have just sufficient sugar to maintain our normal consumption until the first of Janu-ary, when the new West Indian crop becomes available to all."

"Our consumption is at the rate of 90 pounds per person per year—a little un-der four ounces per day per person."

"The French people are on a ration of sugar equal to only 21 pounds per annum per person—or at the rate of less than one single ounce per day per person—a little more than the weight of a silver dollar each day."

"The English and Italian rations are also not over one ounce per day."

"The French people will be entirely without sugar for over two months if we refuse to part with enough from our stocks to keep them supplied with even this small allowance, and it is not avail-able from any other quarter."

"Sugar even to a greater amount than the French ration is a human necessity. If our people will reduce by one-third their purchases and consumption of candy and of sugar for other uses than pre-serving fruit, which we do not wish to interfere with, we can save the French situation."

"In the interest of the French people, and of the loyalty we owe them to di-vide our food in the maintenance of our common cause, I ask the American people to do this. It is unthinkable that we re-fuse this request."
